MATH

NUMBERS, SHAPES AND COLORS

Primer

MATH
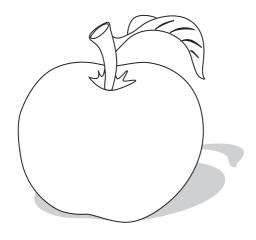

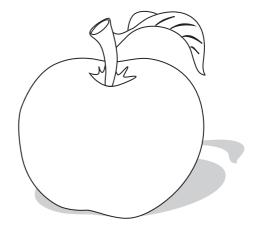

Primer

Contents

Date: _____

Red

• Activity: Color the apples with red color.
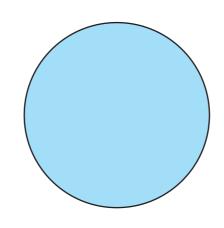

Shapes

Date: _____

Circle

Square
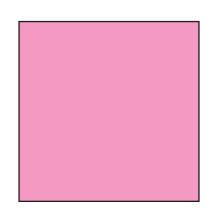

Objective: To recognize the circle and square shapes
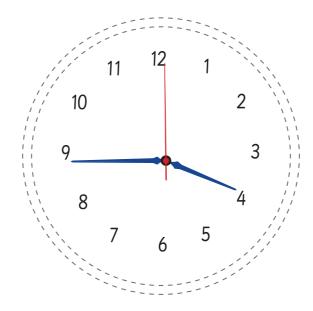

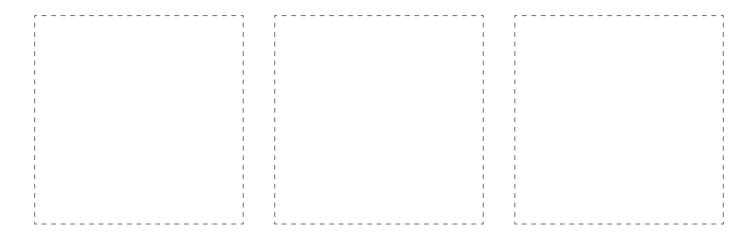

Circle

• Trace and color the clock.

```
        11  12  1
     10           2
    9              3
     8           4
        7   6   5
```
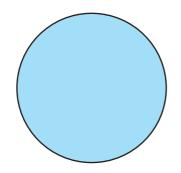

Square

• Trace and color the squares.

Shapes

Date: _____
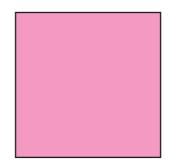

- Activity 1: Match the objects with their shapes.
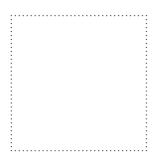

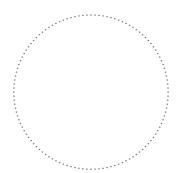

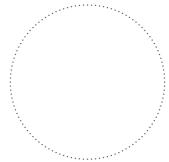

- Activity 2: Trace and color.

Objective: To differentiate between circle and square objects

Date: _____

Number 1

1
One

One pineapple

1

1
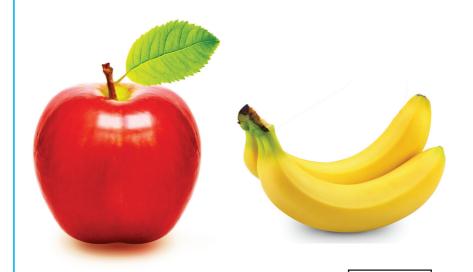

• Activity: How many apples are here?
  Write down number in the box.

Objective: To recognize and count number 1

count   trace   color
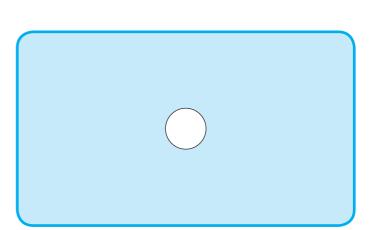

Date: _____

One

• Count and color the bead.

1

• Trace hollow and dotted numbers.

Objective: To trace number 1

Date: _____

• Activity: Count and match the objects with their numbers.

1

2

3

Objective: To differentiate between number value 1, 2, 3

• Activity: Count and match the objects with their numbers.

Objective: To remeber the value of 1, 2 and 3
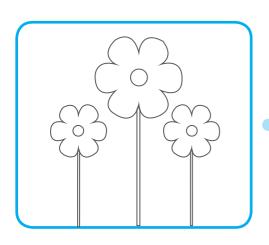

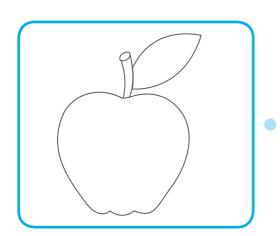

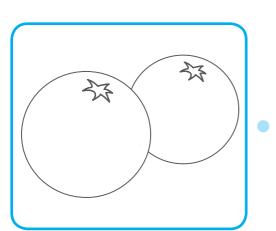

Date: _____
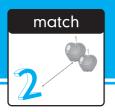

Belongings

• Activity: Match the things which belong to a boy or a girl.

Objective: To recognize belongings
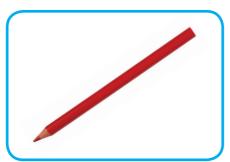

Date: _____

Belongings

• Match the objects with related place.
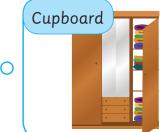

Bag

Pencil box

Tool box

Cupboard

Note book

Objective: To match different objects with their belongings

Date: _____

What happened next?

- Activity: Observe sequence of the pictures and write down 1 to 4 with correct order.

Objective: To order activities in appropriate sequence

write

Date: _____

What happened next?

• Activity: Observe sequence of the pictures and write down 1 to 4 with correct order.

☐

☐

☐

1
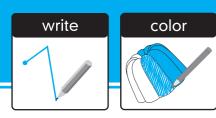

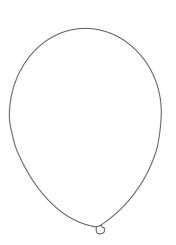

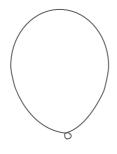

Objective: To order events in appropriate sequence

Sequence

• Color and number the balloons in correct order.

1

Date: _____

More and Less

More flowers

Less flowers

• Activity: Which holder has more pencils? Tick it.

☐   ☐

• Activity: Which basket has less fruits? Tick it.

☐   ☐

Objective: To differentiate between more and less
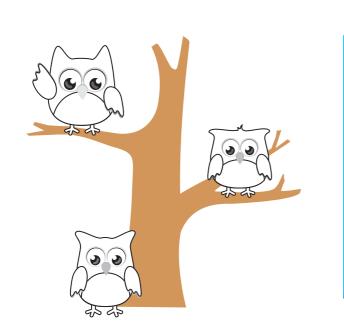

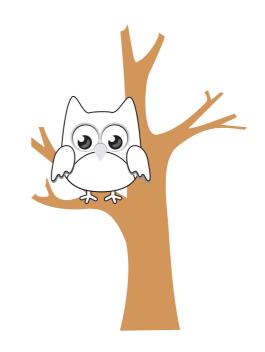

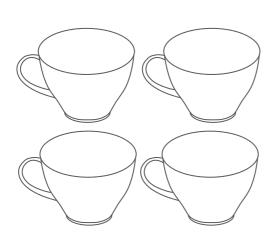

More and Less

- Color the more birds.

- Color the less cups.

Objective: To identify less and more objects

PHEASANT
MATH
NUMBERS, SHAPES AND COLORS

This series contains three books including **Pheasant Math Primer, Pheasant Math Foundation-1, Pheasant Math Foundation-2**. Primer focuses on primary colors, basic shapes, and counting while Foundation-1 teaches about logic, making of colors, numbers, shapes, counting from 1 to 100, and some measurement concepts. Moreover, Foundation-2, educates about advance concepts e.g. sets & sorting, position, opposites, sizes etc. and as well as arithmetic (addition, subtraction, and multiplication). It also clarifies some other practical mathematical concepts.

When you buy grocery, purchase clothes, grow plants or decorate your home, you are using math principles. Trading, cooking, building houses, searching on internet, or making budget, without math you are unable to do these things.

Pheasant Math Series is a perfect blend of Mathematical principles and their application in daily life. This series provides universal skills and concepts of Mathematics, including counting, shapes, colors, logic, measurement, money and time. It is designed by keeping in view the advance math skills and concepts like arithmetic, geometry, algebra and statistics. It is also considered that age appropriate books enhance the children ability to learn math effectively and efficiently.
